January 2023 - January 2023 (1 month)

Assignments are as follows

Integrate a chatbot feature where users can ask their questions directly to the
chatbot.

It should answer all programing related questions

Authenticate with OTP before asking questions

2. Create subscriptions using a payment gateway (like stripe, razorpay) to post
questions in stackoverflow.

Testcase: Free Plan can post only 1 question a day, silver plan will be #100/month which can post 5 questions a day and gold plan can post unlimited questions and priced at #1000/month.

3. Create a social media community where people can share images, and videos and get likes and shares and also be able to add friends and remove friends.
Testcase: Users can share their programming experience here using text, photos, and videos which can be viewed by others. Users can search, like, unlike, remove, add their friends.
Currently working on completion of the projects.
